

Regarding「how to dispose of the garbage」in Yoshida city

1 Put the garbage in the garbage collection stations designated by the apartment or the company.

※The garbage collection station is managed by people who live in the local community. Please do not dispose of the garbage elsewhere without permission, except at the designated garbage station.

2 Put the garbage in the garbage collection station before 8 a.m. on collection day

※Please see the day to dispose of the garbage in the garbage collection calendar.

3 Please put the burnable waste into plastic bags designated by the city and dispose of them.

※The designated garbage bag is sold at the supermarkets and home centers.

The garbage that can be recycled must be classified into 4 types and placed separately in bags in which you can see its contents.

①Metals

※Please empty the contents, wash, dry it and dispose of them.

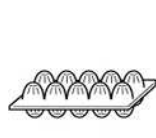

②Plastics

[with "PURA" logotype]

Please empty the contents from inside, wash, dry it before disposing. We cannot collect objects that are too dirty or can't be washed.

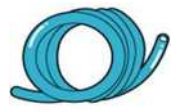

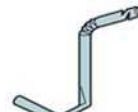

Put separately inside the transparent bags where you can see its contents and write MAKU ARI.

[without "PURA" logotype]

Almost all the plastic materials that are made of hard plastics. The product itself is made of plastic.

Put separately inside the transparent bags where you can see its contents and write MAKU NASHI.

③Glass

Empty the contents from the inside, remove the lid.

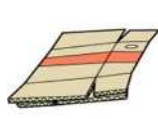

④Plastic PET bottles

Remove the cap and label, wash the contents from the inside with water before dispose of them in the trash. Labels, caps can be placed as PURA".

5 Items that cannot dispose of at garbage collection stations.

Lamps, dry cell batteries, cardboard boxes, newspapers, electrical appliances, large garbage.

The pickup of the bulky household garbage was started

1 Target : Residents of Yoshida-cho area as well as Makinohara-shi

2 Contents : We provide the collection and transportation of bulky garbage that has become useless from your home, for those who made a request

3 Eligible bulky waste for collection : The oversized garbage is limited to the size and weight that can be transported by 2 employers.

【Examples of items】

▪ furniture types (wardrobe, table, chair, sofa) ▪ bed, mattress ▪ carpet, fitted carpet ▪ Tatami ▪ duvet, blanket ▪ bicycle ▪ baby stroller ▪ colorful cabinet ▪ small appliances (excluding appliances such as refrigerator, air conditioning, TV and washing machine) ▪ heating table, microwave, heater, light fixtures, vacuum clear, fan ※ For items that may be collected, please inquire by telephone.

4 Fees : Collection and transportation costs 1 time 3.250 yen

Processing costs at 250 yen for each item collected (maximum total of 5 items at a time).

※ Example : in the case of 5 items the service charge is 3.250 yen + the total processing 1.250 yen = 4.500 yen.

5 Registration method :

(1) Please apply by telephone to cleaning center (☎ 0548-24-0530) and make a reservation. (It can be done at the cleaning center's counter)

※ Monday to Friday from 9a.m. until Noon and from 1p.m. to 4p.m. (Except holidays and the end and New Year's from December 29th until January 3rd)

(2) Please provide your name, address and telephone number.

(3) Please tell us the type and quantity of bulky garbage you want to process. ※ Size, color, feature, etc...

(4) Please tell us the desired collection date and time.

※ Monday to Friday from 9a.m. to Noon and from 1p.m. to 4p.m. (Except holidays and the end and New Year's from December 29th until January 3rd)

※ The collection day is 14 days after the date of request.

※ Depending on the reservation status, it may not be possible to meet your request.

(5) We will check the designated place to put the bulky garbage.

※ Designated place where you can collect outdoors.

※ Please consult us if it is difficult to carry out the bulky garbage from inside the home.

(6) Other day, the cleaning center will send by mail the payment bill to pay the fee at the counter of financial institutions (JA Hainan bank, Shizuoka bank, Shimada Shinyo Kinko, Yoshida-cho City Hall Kaikei ka) . There are no transfer fees.

(7) Please attach the label on the oversized garbage 「Soudai gomi kobetsu shushu hyo」 that was mailed where it can be easily seen on the collection day by 9a.m. and put out the garbage on the designated place.

※ Please do not put out your bulky garbage in places that obstruct traffic, such as streets and roads.

※ In principle, there is no need to meet at the time of collection. However when carrying out indoors, it is necessary to submit and deliver the term of agreement 「kakuyakusho」 and stay present at the place of collection.

6 Others : (1) The items and quantity of bulky garbage cannot be changed.

(2) Please be sure to remove any contents from inside before disposing the bulky garbage. The bulky garbage that contains contents something inside it cannot be collected or bulky garbage without identification tag.

(3) If the payment of the collection fee cannot be confirmed until the day before the collection date, the collection will not be realize.

(4) In some cases the garbage collection will be subject to change depending on the weather and other conditions.

(5) In some cases the oversized garbage associated with moving house may not possible to collect.

(6) Pursuant to the home appliance recycling law, when disposing of air conditioners (including outdoor units), TVs (CRT type, liquid crystal, plasma) refrigerators, freezers, washing machines, clothes dryers, please inquire with the nearest home appliance store.

(7) You will not be able to apply for the collection of some oversized garbage that cannot be processed at the cleaning center and recycling center.

Please collaborate for recycle and collect the garbage.

Information about how to place your garbage

the way to dispose of hospital waste at home

For the treatment of hospital waste at home
shall be as set out below:

We ask you to place separately the puncturing and sharp objects such as injection needle
and classifying the objects that are not sharp like as chemical bags.

Example to dispose	How to dispose
<p>Sharp objects and pointed ends such as syringe</p>  <p>Self-injection device with protective cap</p>  <p>Injection pen</p>	<p>Please consult the medical institution or at pharmacy about how to dispose</p>
<p>Non sharp objects like as medical fluid bags</p>    <p>variety of bags 【for transfusion • urine bags • stoma (artificial anus) • CAPD (continuous ambulatory peritoneal dialysis) • variety of intravenous bags for nutrients】</p>    <p>tubes • catheters syringe • ampoules , needleless injector</p> <p>(objects without needles)</p>	<p>Please place on the collection day such as burnable garbage</p> <p>To recycle hygienically, please place them inside a clear plastic bag, close it and put inside the plastic bag designated by the city</p>

◎Information about how to dispose :

Let's collaborate with the recycle of plastics

We are currently doing the recycle of the plastics separately :

Whith PURA logotype

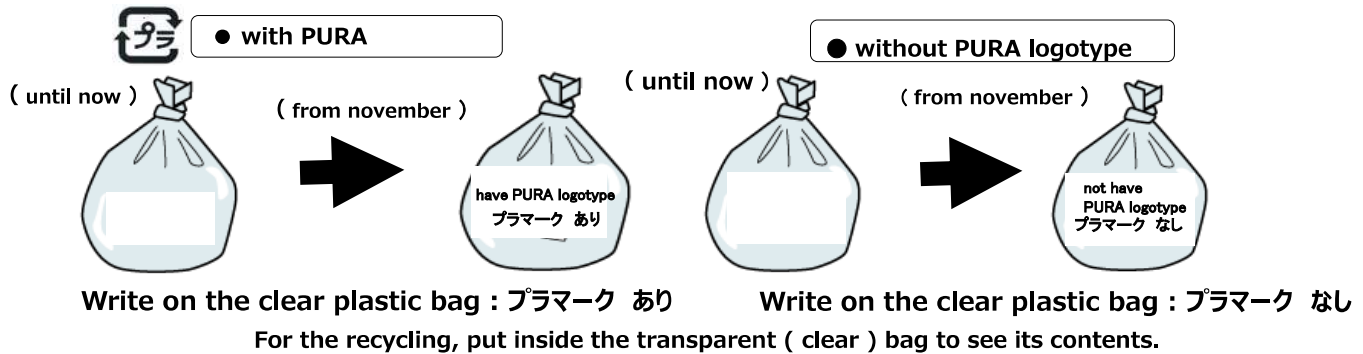

(maaku ari) = プラマークあり

Without PURA logotype

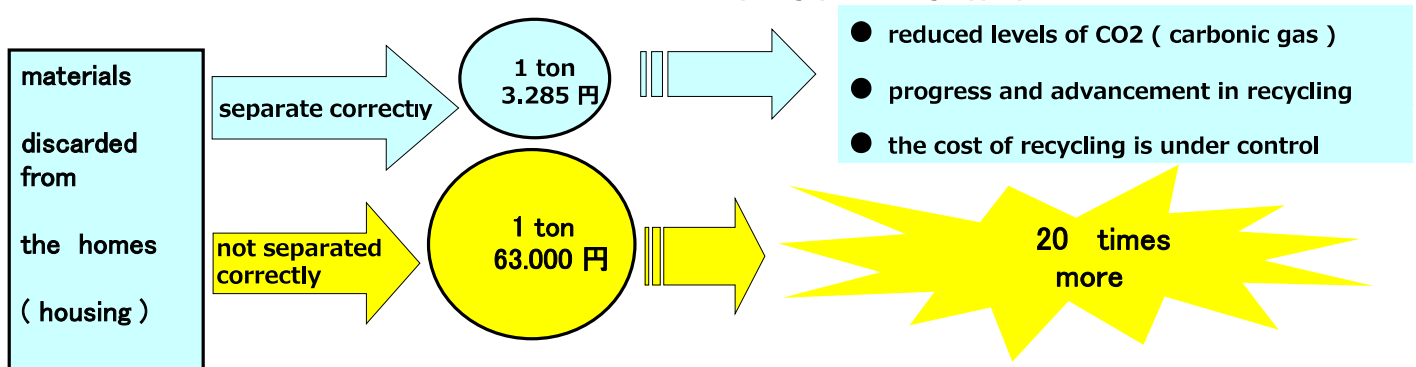

(maaku nashi) = プラマークなし

From november 2009, we are requesting to write if have or not the PURA logotype when you dispose the plastics garbages.

Difference in the cost of recycling (PURA logotype)

How to put inside the clear plastic bag :

The cost of recycling is about 20 times more expensive

You should wash the dirt, dry and remove all water before the recycling. Once a month on Wednesday (see the calendar)

for recycling plastic bottles. The lids and labels must be removed and recycled with other PURA logotypes.

Garbages with the recycling PURA logotype must not disposed into supermarket plastic bags but they should be placed directly on transparent plastic bags.

Do not dispose pipes, tubes and hoses for irrigation.

- If you have any doubts about recycling, please call the following number : Shizuoka ken Haiki Mono Kyoukai (telephone : 054 - 255 - 8285)
- The plastic materials from industries or companies should not be disposed together with household garbages.
- If the separation inside the plastic bag is not appropriate, we will put a label on the bag and these contents should be adequately separated until the next garbage collection day.
- If your neighborhood association need a explanatory meeting, please call to : Yoshida-cho Makinohara-shi Kouiki Kumiai Seisou Centa.

(telephone 0548-24-0530), or Makinohara Shiyakusho Kankyou Shitsu (Sagara Tyousha) telephone: 0548-53-2609.

Plastics materials that are easy to confuse :

Select and verify, if the plastic material has the " PURA " logotype →

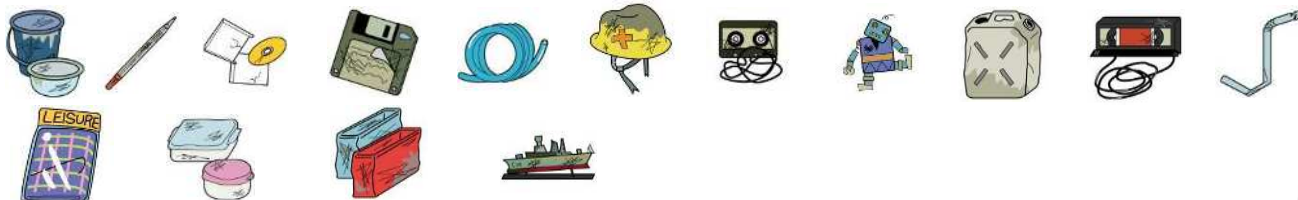

Even though not having the PURA logotype, some plastics garbages are considered as having the PURA logotype.

White trays (styrofoam) will be collected 4 times a month on Wednesdays (see the calendar of district).

Tools of metals with plastics that are not separable, you can dispose as a metal.

Glass with plastics that are not separable, you should throw away along with glass (or ceramic).

Plastics materials that are easy to confuse: does not have the PURA logotype

What is PURA logotype ?

There are containers that are recyclables, such as tray of food where you can verify the PURA logotype for recycling ↗

Plastics bags – Transparent film (wrapping)

- Bread, biscuits, food packaging, plastics bags and fresh foods.
- Plastic wrap "rappu ", labels,

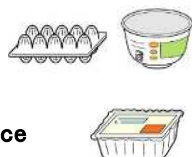

Liquid bootles

- Detergents, shampoo, container of condiments in general.

Cups and packets

- Packages of egg and pudding
- Lamen dishes, food from a convenience store boxes (obentou), soy bean (toufu).

Containers (tubes)

- Container of mayonnaise, kechup, toothpaste, condiments in general.

Plastics netting

- Oranges , onions.
- Apples, peaches.

Plastic caps and lids

- Plastic cap from PET bootles, detergents, spray and food.

Polyethylene foam for protection, cushion

- Polyethylene foam to absorb shocks, impacts.
- For packaging of fragile products. (must be broken into smaller pieces for recycling along with polyethylene).

Colored trays

- Fruits, fresh meats, foods in general.
